## **The Finnish Football Players' Association Announces Its Support For Justice For Players, Following Support From Thirteen European Players' Unions**

**Amsterdam, 6 March 2026:** The Finnish Football Players' Association (FPA Finland) announced its support for the [Justice for Players](https://www.justiceforplayers.com) class action against KNVB, FIFA and several national football associations.

The total number of European football players' unions backing the Justice for Players class action has now reached fourteen. This announcement follows the support from the national players' unions of the Netherlands (VVCS), Belgium (United Athletes), Austria (VdF), Slovenia (SPINS), Croatia (HUNS), Bosnia and Herzegovina (SPFBIH), North Macedonia (SFM) and Serbia (SPFN), the Czech Republic (ČAFH), Ireland (PFA Ireland), Denmark (Spillerforeningen) and Lithuania (PFA Lithuania). It also follows the French professional footballers' union (UNFP) joining the action as a co-plaintiff in October.

On 4 August 2025, the Dutch foundation Justice for Players (JfP) announced that it is leading a class action against FIFA and several European football associations, on behalf of players who have played in European and UK clubs since 2002: [www.justiceforplayers.com](https://www.justiceforplayers.com).

The primary aim of this class action is to obtain fair financial compensation for all professional players and former players, regardless of their nationality, who have been under contract at some point in their career with a European club including the United Kingdom between 2002 and the present day. This financial compensation is owed based on the CJEU's Diarra ruling (4 October 2024) because the FIFA rules were deemed illegal by the CJEU.

A preliminary analysis by economists at Compass Lexecon has estimated that affected professional football players have earned on average approximately 8% less over the course of their career than they would if the FIFA Regulations had not been unlawfully restrictive.

Furthermore, the class action aims to ensure that FIFA adopts, through genuine dialogue, the governance reforms required by EU law, which include co-decision-making power for players' unions on all matters relating to players' working and employment conditions, in collaboration with the associations representing the clubs.

**Topi Valtonen, member of the FPA Finland Board, said:** *"This is a major international matter. The Finnish system is part of the global football ecosystem, and as the representative body of Finnish footballers, it is essential for FPA Finland to support the development of a system that is genuinely fair to players as well."*

**Lucia Melcherts, Chair of Justice for Players, responds:** *“The support of FPA Finland marks a significant step forward in ensuring that the rights of professional footballers are upheld under European Law. The European Court of Justice has made it clear that FIFA’s unlawful transfer rules have, for many years, affected the salaries earned by players in Finland, the European Union, and the United Kingdom. Through our legal action, we aim not only to secure the financial compensation owed to players for the earnings they have lost, but also to bring fundamental and lasting reform to the transfer system.*

*FPA Finland’s support highlights the growing momentum and unity among players throughout Europe who are calling for transfer rules that are fair, transparent and fully compliant with the law.*

*We encourage all players who have played for a club in the EU or UK since 2002 to visit [www.justiceforplayers.com](http://www.justiceforplayers.com) to join the legal action and play their part in helping to ensure that a fairer system is developed that will benefit the sport as a whole.”*

JfP is seeking substantive changes to the FIFA transfer rules so that they comply with EU law and reflect European values and principles of free movement. It follows from the Diarra-judgement of the European Court of Justice that all players were harmed as a result of the FIFA transfer rules.

An estimated 100,000 professional football players, men and woman are eligible to join the legal action. For more information, please visit [www.justiceforplayers.com](http://www.justiceforplayers.com).

JfP has instructed Netherlands-based law firm Finch Dispute Resolution, which specializes in class actions in the Netherlands to represent it in the class action. Dupont-Hissel, the law firm that is representing Mr Larssana Diarra, is also advising JfP.

This legal action is fully funded by Deminor, one of Europe’s leasing providers of legal finance, so that players will not have to pay to join the legal action or assume the financial risk of this legal action.
